### ABOUT ME

I am a young driven guy who has studied and worked in design and programming for a couple of years. I have always been curious to learn more and am always open about my weaknesses. I adapt easily to different environments and contexts. I am a happy and helpful person who is always motivated to develop in my role. I thrive in both team environments and independently. My goal is to improve my skills and knowledge to become an expert in the field.

### EXPERIENCE

#### Fullstack Developer Rexett

Jun 2025 - Present

- Designed, developed, and deployed a full-stack travel booking platform from the ground up, enabling users to book hotels, accommodations, rental cars, and rental boats. Implemented authentication, booking management, payment integration, supplier dashboards, and responsive user experiences using the MERN stack.
- Worked as part of a development team to enhance an AI-driven contract management and e-signature platform, contributing to document workflows, automation features, and secure digital signing solutions.
- Collaborated with a cross-functional development team to build and maintain AI-powered recruitment software, contributing to features for candidate management, workflow automation, and recruiter productivity tools.

#### Fullstack Developer Intern Rexett

Jan 2025 - Jun 2025

- Solo developer of a full-stack project management application built during my internship. Designed the system architecture and implemented project management, task tracking, user authentication, role-based access, dashboards, and responsive user interfaces from concept to deployment.

#### Vehicle Assembler Volvo Cars Torslanda

Mar 2022 - Feb 2025

- Assembled vehicles while maintaining high standards of quality, safety, and efficiency.

## PROJECTS

### BookingMine

Built a multi-service booking platform for hotels, car rentals, boat rentals, and accommodations with both web and mobile support. Focused on scalable architecture, payment flow integration, and cross-platform experience.

**Tech Stack:** React, TypeScript, React Native, Node.js, Express.js, MongoDB, CI/CD, Docker

### Kretsia

Contributed to a business-focused platform built within a structured Scrum environment, focusing on deployment workflows and content-driven features. Worked in a team setting with CI/CD pipelines and cloud deployment.

**Tech Stack:** AWS, WordPress, CI/CD, Scrum

### Skrivly

Worked on a document and workflow-based platform in a Scrum team environment, contributing to deployment processes and cloud-based infrastructure setup. Focused on maintaining scalable and production-ready workflows.

**Tech Stack:** AWS, WordPress, CI/CD, Scrum

### ProTasker

Developed a project management tool for task tracking, project organization, and team collaboration. Built and maintained both frontend and backend independently with a focus on clean architecture and scalability.

**Tech Stack:** React, TypeScript, Node.js, Express.js, MongoDB

## EDUCATION

### Frontend Developer

Sep 2023 – Jun 2025

Folkuniversitet

- Studied modern frontend development with Backend, Database and responsive design principles.

### Digital Media

Sep 2020 – May 2023

University West

- Focused on digital design, UX/UI, web development, and media production across multiple platforms.

### Programming 1

May 2023 – May 2023

NBI/Handelsakademin

- An introductory programming course covering fundamentals of Python logic, algorithms, and code structure.

### Social Science - Behavioral Science

Aug 2015 – Jun 2018

Kunskapsgymnasiet Gothenburg

- High School education with a focus on behavioral science, sociology, and psychology.
